TECHSAVIA EXCEL PROJECT

Using the GlobalTech Solutions data, address the following questions:

- 1. Which employees have been with the company more than 10 years?
- 2. Which department has the highest average years of experience?
- 3. What's the average salary per department?
- 4. Identify employees earning above their department's average, identify them as "High class"
- 5. Which country and city has the largest workforce?
- 6. Create a summary table showing department distribution by country.
- 7. Compare salaries to years of experience (is there a clear relationship?).
- 8. Are employees with more years of experience consistently earning higher average salary compared to those with fewer years of experience
- 9. Who are the top 5 earners across the company?
- 10. Which department has the highest salary expense (total salaries)?
- 11. Which job title is most common in the company?

Dashboard Creation

Scenario:

You are the Data analyst at GlobalTech Solutions. The management board has asked you to prepare a Company Workforce & Compensation Dashboard that will give them a one-page overview of the workforce.

Your dashboard should answer these key business questions:

- 1. Key Performance Indicators
- 2. Headcount Overview
 - o Employee distribution by Department and Country.
- 3. Workforce Demographics
 - o Average Years of Experience per department.
 - o Hiring trends (number of employees hired per year).
- 4. Compensation Insights
 - o Average and total Salary by Department.
 - o Compare salary ranges across countries.
 - o Highlight the top 5 earners.
- 5. Retention & Risk
 - o Number of employees with less than 3 years□ experience
 - o Bottom 3 departments with the longest-serving employees.
- 6. City-Level Insights
 - o Which city has the largest workforce?
 - Which city has the highest total salary cost?
